KIM'S BACK! Artist Harry Evans is the proud owner of two prize shelties. Kim fathered his first litter of puppies just as Ancestoring VI was going to press, and Harry pictured the new members of Kim's family on page 65 of that issue. When Harry was doing the art work for the quilting article for this issue, he decided to have Kim "do his thing" at a quilting bee. The picture was inspired by Harry's childhood memories of bees his aunt had for her friends during his summer vacation visits with her at her Wilkes County farm.

Won't You Join Us?

Above are some of the ways in which the Augusta Genealogical Society can assist you in your own "ancestoring" quest. Each one of them is designed to provide members with facts, clues, or advice on individual research problems. Membership is the key to access to them.

Also, exciting things are going on within AGS for the benefit of the community and future generations. For example, an extensive cemetery survey program is being carried out, with AGS teams recording hundreds of tombstone inscriptions for publishing--and posterity. Placing these records, and others from the rich lode of local church, courthouse, family, census, tax, marriage, and other genealogically-important records before the general public is a gigantic undertaking, but a tremendously rewarding one. We invite you to become part of it. Either in an active, or a supporting role.
