

INDEX

The following all-name index does not include names in the Surname-Area Search File on pages 81-83, since they are listed alphabetically. Due to the large number of given-names-only in early Cedar Grove Cemetery Sextons' Records, pages 63-68, they are shown in a separate section at the conclusion of this index.

Names below were copied EXACTLY as they appear in original records, even though it was obvious at times that some spellings were in error.
